THEME

Teams are invited to select from the following Themes:

Showcase your innovative ideas in **Smart Automation, Smart Education, Smart Healthcare, Green Technology and Sustainability, and Cybersecurity and Blockchain Technology** at the Tech Ideathon! Unleash your creativity and revolutionize the future.

JUDGING SCORE BOARD

The live scores will be displayed in the form of rankings, which will be continuously updated throughout the event to provide real-time insights into the performance of each participant or team. This system is designed to maintain full transparency in the judging process, ensuring that all participants can track their progress and see how they rank compared to others at every stage of the competition. By making the scores visible, we aim to create a fair and open environment where everyone can feel confident that evaluations are conducted objectively and without bias.
